

# Why should you be involved in DMH and FEM

# Personal benefits

- Talk with my peers in the industry
- Extend my network
- Open doors, that would have remained closed
- Understand much better the context of certain topics
- Being able to judge what are the priorities and how to influence them

# Company benefits

- Be aware that our competitors also have issues. It's not so easy to find this out. Therefore you need to know each other
- Find communality amongst these issues
- Identify which issues affect our industry
- Try to solve above issues together industry wide. DMH and FEM are founded for that

# Company benefits (ctnd)

- Understand legislation
- Identify the open/problem areas
- Either try to fill in these area's or come up with recommendations (FEM)
- If the company is active:
  - You have upfront information, so much more time to do things properly. Time is of essence
  - Sometimes above can be influenced

# Company benefits

- Better understand what your real USP's are compared to your competitors
- Being able to feel/sense what competitors are looking for
- Learn a lot.
- Get free education
  - ie. Energy project in Intra logistics
